- Developed a web application which helped the university manage administrative reports generated by several universities nation-wide. Used **Apache Tomcat, JSP, MS Access, HTML, JavaScript, HTML, and CSS.**

EDUCATION

FULL STACK BOOTCAMP, SOUTHERN METHODIST UNIVERSITY   DALLAS, TX

2021– CURRENT

- Currently learning NodeJS, ExpressJS, and ReactJS using MVC frameworks.

B.S. MANAGEMENT INFORMATION SYSTEMS   **MEXICO CITY**

UNIVERSIDAD DEL VALLE DE MEXICO

1998 – 2002

- GPA: 3.7 Simultaneously worked full time at Sony Comercio de Mexico, creating web applications for the company.

ACCOMPLISHMENTS

- The web app I developed for ITESM University, among other things, allowed the mutual collaboration of at least 15 other universities nationwide.
- The reporter web app I developed in Monex Grupo Financiero, had a substantial impact on this financial organization due to its nationwide usage by all of its branches.
- Using my knowledge of JavaScript, I developed small programs to organize data and improve teaching instruction (i.e. "Adding and Subtracting Using One Hundred Chart", "Rounding Numbers Up to One Hundred", "At-Home Learning Work Report for Parents").

ADDITIONAL INFORMATION

- Bilingual English/Spanish.
- Organized, team player, fast learner, and autodidact.

PERSONAL INTERESTS

- I am an avid reader who likes to learn about many topics, including Total Quality Management, personal development, and World History.
